A Number Of Rooms

A room of switches
Liquid passage
Electrical currents
The architecture of thought
A room expanding
As sets of encyclopedias
In circular rows
Clumsily support
A floor of glass
A room is memory
Forms a fragment
Retraced
Exploring a room
A charged location
A hidden circuit
Trap door
Motion entry
Underground railroad
A room imbued with histories
Of human flight
From violation
Observing
Against a quality of security
A safe room quietly erodes
becoming the motion of doubt
A newspaper photo of a room
an excavation in the center
reveals a layered shell debris scattered
a room
evidence of light industry
a fabrication process
marks scored into the floor
movements now still
odor of dust
a room temporarily sealed
a dehumidifier suspended at eye level
a gutter on a slope for the overspill
a reflecting pool at its base
a vaporizer continues an endless cycle
a room breathes
a room empty and full
each room becomes a song

A (3) AV / Acronymic Vehicle

I	interphone or public address
Mr	manufacturing record
S	special types, magnetic, etc. or combinations of types
Lub	lubrication
Li	letter of intent
Lob	line of balance
Let	linear energy transfer
Cip	clean and in place
Sad	situation attention display
Slang	site activation division
Da dic	data dictionary
Ds	detached service
Da	director of aircraft
V	voice
V	valve
Veh	vehicle
Men	multiple
Can	correlation air navigation
Mok	international commission on illumination
Fast	field data applications, systems, and techniques
Fax	facsimile transmission
Mo	movement orders
Adpso	association of data processing service organization
Clear	compiler, loader, executive program, assembler, routines
O	observation
Sa	switching devices
Fifo	floating point interpretative program
Trace	taxiing and routing of aircraft and coordinating equipment
Trawl	tape read and write library
Es	echo sounding
Escape	expansion symbolic compiling program for engineers
Fast	field data applications, systems, and techniques
Flip	floating point interpretative program
Opera	ordnance pulses experimental research assembly
Tat	turn around time
Yap	yaw and pitch
Apoe	serial point of embarkation
C	communications
Kwic	key word in context
Tic	transducer information center
To	time open
Ac	aircraft
Acca	ad hoc crypto – coordination agency

Act	automatic code translation
Addu	additional duty
Aa	air to air
Ego	eccentric geophysical observatory
Sa	switching devices
Fir	functional items replacement
Fr	fast release
Lt	language translation
Flea	flux logic element array
E & e	evasion and escape
Ac	aircraft
C	carrier
E to e	end to end
B to b	back to back
Martini	massive analog recording technical instrument for nebulous indication
N	sound in air
Btry	battery
Mo	movement orders
Maids	multipurpose automatic inspection and diagnostic system
Mu	memory units
Cn	compensation
Mayday	m'aidez
C to c	center to center
Snafu	situation normal – all fouled up
Piapacs	psycho-physical information acquisition, processing and control system
Prose	program system example
1	Countermeasures
Prp	pulse repetition period
Puc	provided you concur
Rap	random access projector
Fap	floating point arithmetic package
Wa	word add
Fn	field note
F of f	field of fite
Cmd	core memory driver
Cad	copy and add
Dwd	drum write driver
Ear	electronic audio recognition
Eros	experimental reflector orbital shop
Ap	aiming point
Par	parameter
Acc	acceptance
Cp	center of pressure
P / p	point to point
Tf	transformers
Co	close – open

Deft	dynamic error – free transmission
Dart	data analysis reduction tape
R	read
R	reverse
Rif	reliability information center
Ky	keying devices
Wa	word add
K	amphibious
Dam	data association message
Mist	multi input standard tape
Massdar	modular analysis speedup, sampling and data reduction system
Oh	on hand
O / o	off ocean
Smo	so much of
Slang	system language
Surge	sorting, updating, report generating, etc.
Sweep	structure with error expurgation program
Toes	trade off evaluation system
Tip	test in process
Top	time of penetration
Tis	target information system
Feat	frequency of every allowable term
Sofar	sound fixing and ranging
Neg	negative
Nar	no action required
E – scat	emergency security control of air traffic
Pen	program error note
Pin	position indicator
Pre	personnel restraint equipment
Parade	passive – active range determination
Pace	performance and cost evaluation
Par	planning accountability records
Azar	adjustable zero, adjustable range
Aso	air signal officer
Comnet	communications network
Contrail	condensation trail
Snort	SAGE non real time (SAGE – semi – automatic ground environment)
Snark	snake – shark
Maps	multivariate analysis and prediction schedules
Mit	miscellaneous tool
Airelo	air electrical officer
Mino	man in, machine out
Noco	noise correlation
Wedge	waterless electrical data generating effortless
Edge	experimental display generation
Eva	extra vehicular activity

At	assembly telling
Aid	auto – ignition temperature
Aev	aerothermodynamic elastic vehicle
Atic	air technical intelligence center
Amtec	automatic time element compensator
Airopnet	air operational network
Advst	advanced stoppage
